BETWEEN TURN REPORT

WELCOME TO STELLAR DOMINION
=====

They warned you at the Stellar Academy that is was a big universe out there. Looks like it was time to find out. The Academy also offered for you to use their designation (STA) on your ship for now, as a mark of safety in your first steps. You know you'll have to join another faction at some point, but for now you can get out own your own and explore.

This is your Prefect report. It provides an overview of your position: your finances, your fleet, and everything you have discovered so far.

You will receive this report each turn alongside your ship reports. Use it to track your credits, monitor your ships, and review contacts.

Your account number is SECRET -- never share it with other players. Your prefect ID and ship IDs are public and may be discovered by other players through scanning.
