BETWEEN TURN REPORT

WELCOME TO STELLAR DOMINION
=====

Boarding the ship the captain smiles at you warmly. "She's a fine ship to be sure," he states, as you watch a panel on the all behind him fall off, revealing freyed wiring. He looks back at you slightly more nervous now. "Well, she might not be the newest ship on the market, but she'll get you where you want to go.

This perhaps wasn't the state of the art vessel you had always dreamed of, but at least it was a start.

You have been assigned command of this vessel. Your ship has completed an initial system scan -- see the TURN REPORT below for what was found.

Your Contacts section at the end of this report lists everything your ship has detected so far. Use this to plan your first set of orders.

QUICK START - SAMPLE ORDERS

Here are some example orders to get you moving. Copy the format below into a YAML file and submit it as your first turn:
